FALL/HOLIDAY 2018 | ARTWEAR & ACCESSORIES

This season we are pleased to launch a number of exciting and new items that build upon our proven success in Art and Apparel.

## ART

We're going back to our roots with a fresh selection of;

- ◇ North American Animal art
- ◇ Native American Batik style prints
- ◇ A few throwbacks that some of our long-time fans will probably recognize!

## PRODUCT

- ◇ Youth Hoodies- builds on the success of our adult styles in time for back to school and cooler weather
- ◇ Barista Mug- an extension of our strong mug collection with hot and cold lid options- bringing art to life everyday

## MERCHANDISING

- ◇ We have new in store solutions for mugs and hats that bring the product to life and highlight our unique art

## NORTH AMERICAN ANIMALS

We've expanded our selection of North American wildlife art, just in time for fall. Featuring new art by best-selling wildlife artists Collin Bogle, David Behrens and Tami Alba. We're also excited to welcome a new artist to The Mountain tribe — Julia Bénard.

## NATIVE AMERICAN

We're going back to our roots. Featuring a collection of designs by our very first artist — Gina Gray. Gina's vintage style is reminiscent of an old-style batik print, created with vibrant dyes and a wax relieve process. These throwbacks were some of the best selling designs we've ever produced. Reintroduced this season, we've put a new spin on a few old favorites.

## FANTASY

When it comes to Halloween and fantasy art, there are few artists that compare to the legendary Lisa Parker. Lisa's work is instantly recognizable by hordes of fans around the world. This season we're offering up a couple of new designs that exemplify her signature look.

## BIG FACE PUPPIES

Artist Vincent Hie is the visionary behind much of our Big Face fame. His charming characters are just irresistible. Perfect for back-to-school.

**WANT YOUR LOGO OR NAMEDROP INCORPORATED INTO ONE OF OUR DESIGNS? OR HOW ABOUT CREATING YOUR VERY OWN UNIQUE DESIGN?**

*WE CAN DO THAT TOO!*

## CUSTOM FILE SUBMISSION GUIDELINES

For custom logo, namedrops and art creation high resolution files are needed. High quality art = high quality shirts. Logos should be provided in vector\* format, please talk to your art department or freelance designer to obtain vector files. Any raster\*\* art or photographic image to be custom printed needs to be at least 16"x20" @175 dpi to get the best quality print, ideally 300dpi.

**DETAILED ART SUBMISSION GUIDELINES ARE AVAILABLE UPON REQUEST**

\***VECTOR ART** — Vector-based graphics can be scaled by any amount without degrading quality. Logos and graphics will print much sharper if supplied in a vector-based format like Illustrator EPS or AI file, as opposed to a pixel-based format like TIFF or JPEG. **\*PLEASE NOTE** When submitting Adobe Illustrator files, be sure to create outlines of all text elements and double check that any links are embedded.

*Common vector art types include; logos & true type. Common vector art formats are; eps, adobe illustrator (.AI), svg, and pdf*

\*\***RASTER ART** — Raster or Bitmap graphics are resolution dependent, meaning they cannot scale up to an arbitrary resolution without loss of apparent quality. Photos and other pixel-based graphics should be supplied as TIFF or Photoshop PSD. High-res JPEGs are OK as long as they are provided at actual size of (or close to) the desired print size. Resolution should be at least 175 to 300 dpi. You cannot simply increase the resolution of the image. This is called upsampling and will result in a blurry or pixelated image. GIFs, low-res JPEGs, and any images copied from a web page such as Instagram will not reproduce well, and cannot be used. CMYK files are preferred.

*Common raster art types are; photos & scans. Raster art formats; bmp, jpeg, psd, tiff, gif, png*
